Profile Summary

Aspiring MERN Stack Developer with hands-on experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in JavaScript and experienced in working with Git for version control and RESTful APIs for backend integration. Passionate about developing scalable, user-focused web applications and continually learning new technologies to stay current with industry trends.

Technologies

Languages & Markup: JavaScript, HTML5, CSS3

Frameworks: React.js, Node.js, Express.js, Bootstrap, Tailwind CSS

Libraries: Redux Toolkit, Mongoose, Axios

Tools & Platforms: Git & GitHub, VS Code, Postman, Netlify, MongoDB Atlas, NPM

Experience

MERN Stack Intern, Luminar Technolab – Kochi, India Nov 2024 – June 2025

- Built full-stack web apps using the MERN stack for dynamic, scalable solutions.
- Built secure RESTful APIs with JWT and managed state using Redux Toolkit.
- Designed responsive UIs with React components and integrated navigation using React Router.
- Used Mongoose for schema design and CRUD operations with MongoDB.

Projects

E-commerce Web Application GitHub

- A full-stack grocery e-commerce application with user authentication and responsive UI
- Tools Used: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Axios

Project Fair GitHub

- MERN stack app for showcasing and browsing user projects with images and links.
- Tools Used: React.js, Node.js, Express.js, and MongoDB

Media Player GitHub

- A modern web-based media player built with React for browsing, playing, and managing media content.
- Tools Used: React.js, YouTube IFrame, JSON Server

Movie Website GitHub

- A responsive movie browsing platform inspired by popular streaming services.
- Tools Used: React.js, Bootstrap, JsonWebServer

Education

University of Mysore, Bachelor of Computer Applications (BCA) Oct 2021 – June 2024

- Christ College Mysuru
- CGPA: 7.75/10.0
- **Coursework:** Data Structures, Web Development, Database Systems, Object-Oriented Programming
